Master Builders Solutions Inaugurates New Taiwan Offshore Grout Production Facility

- » **New plant to accelerate production level of MasterFlow and NaX series to meet the demand for offshore projects within the region**
- » **To help develop the offshore wind supply chain in Taiwan**
- » **Latest investment to further enhance innovative solutions catered for the offshore market**

(Taiwan, February 23, 2022) Master Builders Solutions[®], the global umbrella brand under MBCC Group, has successfully launched a new Taiwan offshore grout production facility in close proximity to the harbor of Taichung, Taiwan. With the successful inauguration of this latest installment, the brand will be able to further cater to the ongoing demands of the offshore wind turbine market. As existing and upcoming projects within Taiwan require crucial timelines, the plant is set to produce MasterFlow and NaX product ranges under the Master Builders Solutions and Nautec brands respectively for offshore foundations in the region.

“The offshore wind market in Asia is on huge growth trajectory and we are pleased that the new plant will enable us to meet customers’ demands for their offshore developments. Our MasterFlow and NaX product ranges have been the go-to choice to meet industry standards in competency and expertise along the value chain for high-performance grout solutions. We are ever-ready to further deliver additional capacity for the fast-growing Asian market, and we have our customers, business partners, and team members to thank for this new venture. We look forward to excellence in business growth and sustainable solutions,” said Dr. Hicham Abel, President of Africa, Middle East & Asia Pacific, MBCC Group.

About Master Builders Solutions

Under the global umbrella brand Master Builders Solutions®, we offer advanced chemical solutions for the construction, maintenance, repair and renovation of structures. The brand is built on more than 100 years of experience in the construction industry. Our comprehensive portfolio encompasses concrete admixtures, cement additives, chemical solutions for underground construction, waterproofing systems, sealants, concrete repair & protection systems, performance grouts, and performance flooring systems as well as solutions for on- and offshore wind energy. To solve our customers' specific construction challenges from conception through to completion of a project, we draw on our specialist know-how, regional expertise and the experience gained in countless constructions projects worldwide. We leverage global technologies and our in-depth knowledge of local building needs to develop innovations that help make our customers more successful and drive sustainable construction. We operate production sites and sales offices in more than 60 countries.

About MBCC Group

The MBCC Group is one of the leading suppliers of construction chemicals and solutions worldwide and has emerged from the carve-out of the former BASF Construction Chemicals business from BASF Group. We offer innovative and sustainable products and solutions for the construction industry across different sectors, such as buildings, structures, underground construction and new construction as well as for renovation. Our strong brands Master Builders Solutions®, PCI®, Thermotek®, Wolman®, Fire Protectors®, Colorbiotics®, Watson Bowman Acme®, TPH®, Bluey®, and Nautec™ are well established in the marketplace. With our innovations, we address sustainability challenges in the industry. MBCC Group consists of approximately 70 legal entities worldwide and is home to around 7,500 construction experts in over 60 countries.
