SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with the Hazardous Products Regulations
--

Acute toxicity (Oral)	:	4
Acute toxicity (Inhalation)	:	4
Skin corrosion/irritation	:	1A
Serious eye damage/eye irritation	:	Category 1
Skin sensitization	:	1A
Reproductive toxicity	:	2
Reproductive toxicity	:	2
Specific target organ toxicity - single exposure	:	3
Short-term (acute) aquatic hazard	:	2
Long-term (chronic) aquatic hazard	:	Category 1

GHS label elements

Other hazards

No data available.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature

: No data available.

Components

Chemical name	CAS-No.	Concentration (% w/w)
4-tert-butylphenol	98-54-4	>= 20 - < 50
Benzyl alcohol	100-51-6	>= 10 - < 15
m-Phenylenebis(methylamine)	1477-55-0	>= 10 - < 50
Trimethylhexane-1,6-diamine	25620-58-0	>= 20 - <= 100
4-nonylphenol, branched	84852-15-3	>= 1 - < 5

SECTION 4. FIRST AID MEASURES

General advice :	First aid personnel should pay attention to their own safety. If the patient is likely to become unconscious, place and transport in stable sideways position (recovery position). Immediately remove contaminated clothing. Move out of dangerous area. Consult a physician. Show this material safety data sheet to the doctor in attend- ance. Do not leave the victim unattended.
If inhaled :	Keep patient calm, remove to fresh air, seek medical atten- tion. Immediately administer a corticosteroid from a con- trolled/metered dose inhaler.
	Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.
In case of skin contact :	Immediately wash thoroughly with plenty of water, apply ster- ile dressings, consult a skin specialist.
	Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficul- ty. If on skin, rinse well with water. If on clothes, remove clothes.
In case of eye contact :	Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye special- ist.
	Small amounts splashed into eyes can cause irreversible tis- sue damage and blindness.

Version 1.0	Revision Date: 09/03/2020	SDS Number: 000000261567	Date of last issue: - Date of first issue: 09/03/2020

and	st important symptoms effects, both acute and ayed	May cause an Causes seriou May cause res	allowed or if inhaled. allergic skin reaction. us eye damage. spiratory irritation. damaging fertility or the unborn child. e burns.
Not	es to physician	: Treat symptor	natically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Foam Dry powder Carbon dioxide (CO2)
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during fire fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if nec- essary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- :	Use personal protective equipment.
tive equipment and emer-	Ensure adequate ventilation.

genc	y procedures		
Envir	onmental precautions	Prevent further	ct from entering drains. r leakage or spillage if safe to do so. contaminates rivers and lakes or drains inform norities.
	ods and materials for inment and cleaning up	acid binder, un	nert absorbent material (e.g. sand, silica gel, iversal binder, sawdust). le, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Advice on safe handling	:	 Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
Further information on stor- age conditions	:	Keep only in the original container in a cool, dry, well- ventilated place away from ignition sources, heat or flame. Protect from direct sunlight. Store protected against freezing.
Materials to avoid	:	Observe VCI storage rules.
Further information on stor- age stability	:	No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods		
Waste from residues	:	Do not contaminate ponds, waterways or ditches with chemi- cal or used container. Dispose of in accordance with national, state and local regula- tions. Do not discharge into drains/surface waters/groundwater.
Contaminated packaging	:	Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the sub- stance/product.
