EgyptAir – Cairo Airport Hanger 7000

The background

The project is building new workshop called Hanger 7000 to check and maintain all EgyptAir airplanes on 10,000 sqm area Master Builders Solutions proposed the use of MasterTop 1230 and MasterTop 1205

Our solution

Master Builders Solutions Construction Chemicals offered Master Top 1205 & Master Top 1230 epoxy self-smoothing to resist high abrasion and it also gives a good colored floor.

The challenge

- Heavy duty, high impact resistant flooring as needed
- Seamless easy to clean
- The client was asking for a shiny and good looking floor, maintenance free and to support high abrasion

Customers Benefit

The Customer is satisfied with the aesthetics and durability of the selected system, the smoothness and good chemical resistance for the system proposed provides impermeable protection against common oils, lubricants and aviation fuels which are frequently used in the workshop.

Project profile: Heavy Duty flooring systems

Project facts at a glance:

- Fast, expert installation
- Easy to clean
- High mechanical strength
- Impact and abrasion resistant
- Good chemical resistance
- Non tainting
- Master Builders Solutions provided the technical and after sales support
- Master Builders Solutions provided the total solution for the client
