

Ucrete UL

Fast Curing Underlayment Screed for Ucrete Floors, with Rapid Installation

PRODUCT BENEFITS

- Fast curing, Ucrete floors can be applied after 16 hours at 10°C
- Fluid and fast to install, can be used with a screed pump
- Versatile, possible to mix and applied to falls
- Applied from 10 to 100mm thick
- Ideally suited to new build and refurbishment projects
- The perfect underlayment screed for Ucrete floors

SUGGESTED APPLICATIONS

- All Ucrete floor applications where a bonded levelling screed is required
