Fragrance Oils Ltd, Manchester

High chemical resistant flooring solution for fragrance production area

Our reference in Manchester (United Kingdom): Fragrance Oils Ltd

The background

Fragrance Oils Ltd specialises in the creation of perfumery essences, natural herbal extracts and flavour compounds for use in the fine fragrance, personal care, air care and household cleaning sectors.

Established in 1967, the company has emerged as one of the industry's most dynamic and influential companies.

The challenge

The company required flooring solutions that would be chemically resistant, non-slip and hardwearing against their demanding working environment with busy forklift traffic and specialist production chemicals. The solution needed to be suitable for warehousing, production areas, chemical storage and laboratories. The busy and growing production schedule could not be interrupted, and flooring solutions need to be long lasting and low maintenance.

Fragrance Oils Ltd, Manchester

High chemical resistant flooring solution for fragrance production area

Our reference in Manchester (United Kingdom): Fragrance Oils Ltd

Our solution

Fragrance Oils has specified and installed Ucrete UD200 heavy duty polyurethane screed since the early 1990's. It has provided a uniform and seamless flooring system that created a safe and versatile working environment for employees. Ucrete has been installed in each major flooring refurbishment on site and has enabled the company to operate uninterrupted whilst meeting met the most stringent hygiene and cleanliness requirements.

With each project coving was also installed using Ucrete RG and all joints were sealed using MasterSeal CR 460. This ensured total protection of the concrete and ground water. It has proven to be an ideal solution for this progressive and versatile manufacturer and over 8000m² of Ucrete flooring has been installed over 25 years.

The customer's benefit

- The Ucrete flooring solution provided a slip resistant, easily cleanable floor surface and was applied to areas of both new and existing concrete floor slabs.
- The project was completed with no disruption to the tight production schedules within the factory.
- Long lasting, low maintenance finishes are crucial to support the busy and evolving business, Ucrete floors have provided 25 years of reliable service.
- Ucrete provides exceptional chemical resistance to countless chemicals ensuring peace of mind to the client when growing and developing their product offering.
- All Ucrete floors are installed by Licenced and trained applicators.

Projects facts at a glance

- Ucrete UD200 and Ucrete RG heavy duty polyurethane floor screeds were installed in over 2,500m² providing a highly chemical resistance and anti-slip finish solution
- Ucrete floors providing exceptional service even after 25 years.
- Easily cleaned surface finish in critical hygienic areas
