Skyline Belgrade

Parking decks flooring systems

Our reference in Belgrade (Serbia): Skyline Belgrade
MasterSeal Traffic 2255

The background

Skyline Belgrade is one of the most modern and the most attractive business and residential complexes in Serbia. The investor AFI Europe, had very high expectations in terms of aesthetics and functionality of the flooring system. Based on the previous positive experience with MasterSeal Traffic systems in the business complex "Airport City" and residential complex "Central Garden", they have decided to again use our range of waterproofing and protection systems dedicated to parking decks. Skyline consists of three skyscrapers with a common parking area, which was built on six levels.
