MasterTile Grouts

MasterTile grout range includes high performance, latex modified, fine textured, cementitious and premium quality epoxy resin products in a variety of colours to complement (or contrast with) tiles and natural stone choices. MasterTile grouts are suitable for all tiling and natural stone projects. They are locally formulated and produced for high performance and good workability in the Middle East climate.

MasterTile® 530	Coloured, latex modified cement grout for ceramic, glass mosaic, porcelain and non-moisture sensitive natural stones tiles.
MasterTile® 545	Premium quality, coloured, flexible, water and abrasion resistant joint grout for tiles and natural stones.
MasterTile® RSG 705	A three-component, high performance epoxy resin based adhesive and grout for pavements, ceramic and acid resistant tiles, in medium and heavy corrosive and hygienic environments.
MasterTile® 707	High performance, two-component epoxy grout and adhesive for all types of wall and floor tiles, natural stones, glass mosaics and agglomerates.
