

**Project:**

Overland Airways Hangar Floor

**Location:**

Lagos, Nigeria

**Project completed:**

2019

**Owner/s:**

Overland Airways

**Applicator/Contractor:**

Cretech Global Limited

**Designer/Architect/Specifier:**

Consttrad Ltd

**Market sector:**

Performance Flooring

**Products used & amounts:**

Mastertop 1230

Mastertop TC941

Masterseal PG470

## Overland Airways, Lagos Hangar Floor

### The background

Mastertop 1230 have been used on the aviation and engineering industry for over 25 years, with a longstanding global track record. When combined with Mastertop TC941, a new cutting-edge technology that minimises effect of scratches on surfaces of epoxy and polyurethane resin floors this became the preferred choice for use on the new Overland hangar floor. Application of the system was awarded to a Lagos based Master Builders Solutions approved and trained application company

### The challenge

- Maintaining existing structural joints within substrate.
- Tight project timeline to be met
- Intricate project execution requirements and collaboration with Overland building consultants and engineering teams

## Hangar Floor

### Our solution

Mastertop 1230 self-smoothing epoxy solution combined with Mastertop TC941 topcoat which improves scratch and wear resistance, abrasion resistance and withstand chemicals common to the aviation industry provides the product performance to meet the operation conditions of the hangar floor, while all structural joints were treated with MasterSeal PG 470. Master Builders Solutions Technical Service Team were invited to provide the technical support required, reducing application issues and thereby minimizing project completion delays

### The customer's benefit

- Abrasion resistance.
- Scratch and wear resistance
- High durability
- Easy to clean
- Aesthetically pleasing
- MBS product specification, technical support, and application guidance.

### Projects facts at a glance

- Master Builders Solutions provided the necessary technical support to enhance product specification and project execution.
- Product specification was tailor-made to client exact requirements and floor conditions.
- Project execution was carried out by a trained and certified MBS applicator using appropriate tools and equipment

### Master Builders Solutions

The Master Builders Solutions brand expresses our expertise in providing customized chemical solutions for new construction, maintenance, repair and restoration of structures.

Master Builders Solutions is built on the experience gained from more than a century in the construction industry. At the core of the Master Builders Solutions brand is the combined know-how and experience of a global community of MBS construction experts, who connect with you to solve all of your construction challenges.
