

SUMAL FOODS BAKERY

Oyo State, Nigeria.

Project:

Sumal Foods Bakery Project

Location:

Oyo State, Nigeria

Project completion:

2016

Owner/s:

Sumal Foods Limited

Applicator/Contractor:

Cretech Global

Market sector:

Performance Flooring

Products used:

Mastertop 1230

Mastertop 1240

The background

The construction of a new bread production line in one of Nigeria's leading food manufacturing companies in Ibadan required a flooring solution that will meet the operation conditions of the client which includes dry production, automated equipment installation, medium traffic and ambient room temperature of about 32°C. The Master Builders Solutions' Mastertop 1240 and 1230 epoxy system, provides this required performance and so, was specified and applied on the floor of the production area.

The challenge

- On-site material application temperature needed strict control due to high ambient temperatures (between 30 - 34°C)
- Tight project timeline to be met
- Intricate project execution requirements and collaboration with rest of Sumal production and engineering teams

Sumal Foods Bakery, Oyo State

Our solution

The proposal of Mastertop 1230 and Mastertop 1240 for the production floor was in line with the customer's requirement for a hygienic, glossy, easy to clean finish with the capacity to withstand medium traffic and the spillage of common chemicals.

A trained and certified flooring applicator was also introduced by Master Builders Solution to ensure full compliance with the Master Builders Solution's application methodology

Customers Benefit

- Excellent wear and abrasion resistance
- Smooth high gloss finish for hygienic applications
- Easy to clean
- Good general chemical resistance
- Master Builders Solutions product applied by a Master Builders Solutions trained and certified applicator.

Project facts at a glance

- Master Builders Solution provided necessary technical support to enhance product specification and project execution.
- Product specification was tailor-made to client requirements and floor conditions.
- Project execution was carried out by a trained and certified Master Builders Solution applicator using appropriate tools for the job.

Master Builders Solutions

The Master Builders Solutions brand expresses expertise in providing customized chemical solutions for new construction, maintenance, repair, and restoration of structures.

Master Builders Solutions is built on the experience gained from more than a century in the construction industry. At the core of the Master Builders Solutions brand is the combined know-how and experience of a global community of construction experts, who connect with you to solve all of your construction challenges.
