

**EHS POLICY****Master Builders Solutions Saudi Arabia for Manufacturing LLC.**

**Master Builders Solutions Saudi Arabia for Manufacturing LLC.**, advocates a safe, healthy & clean environment in support of its global thrusts to improve EHS practices & encourage a high level of awareness among our employees. The company operates a EHS Management System under Master Builders Solutions guidelines / directives & local requirements to systematically control, manage & continuously improve our performance in each of the following EHS Disciplines:

This will be achieved by:

- » EHS Audit conducted by Corporate auditors to ensure Master Builders Solutions strategy “We Build Sustainable Performance” & the commitment to Environment Health & Safety” is followed.
- » Ensure timely reporting of EHS & Transport incident to Corporate and ensure similar incident does not reoccur.
- » SDS is available for all raw material and finished products to ensure safety of employees and customers.
- » Aim to provide a safe & healthy working environment for all who work at site and at customer site (both internal and contractors)
- » Ensures to protect each employee’s life & health at the workplace & to assist in assuring that Master Builders Solutions products do not pose health risks to employees, customers & the general population when handled properly.
- » Operate & maintain its plants in order to prevent process safety incidents throughout the life cycle of a production facility through a risk-based process safety management system
- » Ensures the development of an adequate Safety, Health & Environmental (SHE) Protection Concept & the proper implementation for all capital expenditure projects
- » Committed to operating its facilities in a responsible manner, protecting the environment by reducing emissions to air, water & soil & by producing less waste as well as by promoting environmentally friendly waste management practices.
- » Ensure the efficiency & effectiveness of its emergency preparedness & response to any emergency situations, disasters or any event that may have an adverse effect on the environment, health & safety of employees, communities & also on Master Builders Solutions properties & brand reputation.
- » Ensure the protection of the company’s assets including its employees & intellectual property from associated risks.
- » Commit to the implementation of measures to prevent releases in the best interest of Master Builders Solutions Saudi, as well as the environment.
- » Minimum requirements for Trade Controls are implemented through a global harmonized standard for compliance & self-control.

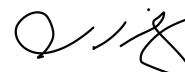

Master Builders Solutions Saudi is committed to Sustainable Development, economic competitiveness & leading EHS performance. We act responsibly as an integral part of society, strictly adhere to our compliance standards & never compromise on safety. As we commit to this policy, the implementation of the EHS Policy settings needs the cooperation & support of every employee in the organization where the continual improvement of EHS objectives will be the key for this policy to succeed.
