

# MasterFlow® 1205UW EX

Cement-based, pumpable, high-strength grout specifically designed for use in **underwater grouting applications**.

## KEY FEATURES:

- Contains an anti-washout additive to allow underwater application
- High compressive strengths
- Hardens without settlement, segregation, shrinkage or formation of voids
- Can be used over a wide range of placement temperatures
- Minimum 1-hour pumpability at 90 °F (32 °C)
- Can be pumped and/or recirculated for relatively long periods of time
- Easy to pump, pour or tremie for ease of placement
