Dispose of rinse water in accordance with local and national regulations.

Conditions for safe storage : Keep container tightly closed in a dry and well-ventilated place.
Observe label precautions.
Electrical installations / working materials must comply with the technological safety standards.

Further information on storage conditions : Opened and partially full containers with product exposed to water or atmospheric moisture should be used promptly and not stored unnecessarily to minimize the build-up of flammable hydrogen gas which may evolve from the product and accumulate at rates that vary with heat, humidity level, volume of head space, etc.
When partially filled containers are reopened, the container must be ventilated adequately to maintain vapors well below the flammability limits and exposure guidelines.
Keep only in the original container.
Clogged container vents may increase pressure build up.

Materials to avoid : Observe VCI storage rules.

Do not store near acids.

Further information on storage stability : No data available
