

MasterEmaco® OneMix

MasterEmaco OneMix is a revolutionary concrete repair system.

THE SYSTEM COMPRISES OF:

Base material and 6 enhancing Power Paks.

WHERE CAN IT BE USED:

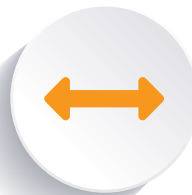

Horizontal, vertical, overhead and form and pour concrete repair applications.

The base material alone can be used for horizontal, vertical and overhead applications.

Form and pour applications require the self-consolidator Power Pak to be added.

Any one of 6 Power Paks will enhance the final result of your application:

- Polymer Modifier
- Self-Consolidator
- Fiber Reinforcing
- Corrosion Protection
- Accelerator
- Retarder

HORIZONTAL

VERTICAL

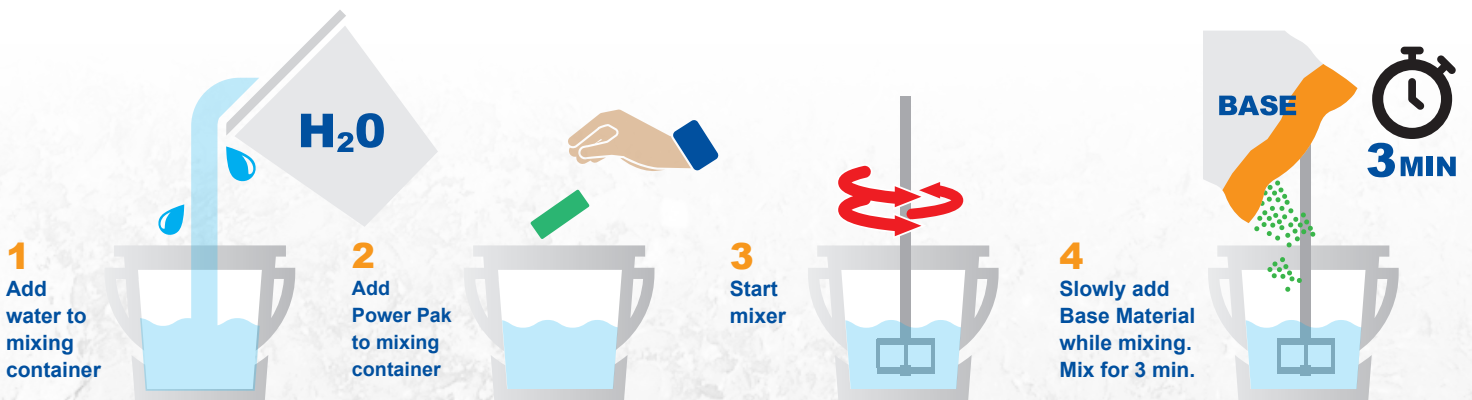

OVERHEAD

FORM AND POUR

MIXING INSTRUCTIONS:

Please see Technical Data Guide for mixing and application details.
