# Cement Board Stucco 1000 CI

## Design Details

### Cement Board System with Continuous Insulation

#### Table Of Contents

1	Typical CBS 1000 CI System (Isometric)	8	Typical Vertical Expansion Joint with Casing Bead (Plan View)
2	Typical CBS 1000 CI System (Plan View)	8a	Typical Vertical Expansion Joint with Backwrap (Plan View)
3	Typical Window Jamb Detail with Casing Bead (Plan View)	9	Typical Control Joint - Reveal 1
3a	Typical Window Jamb Detail with Backwrap (Plan View)	10	Typical Control Joint - Reveal 2
4	Typical Window Head Detail with Starter Track	11	Typical Light Fixture
4a	Typical Window Head Detail with Backwrap	12	Typical Pipe Penetration
5	Typical Window Sill Detail with Casing Bead	13	Typical Sign Attachment
5a	Typical Window Sill Detail with Backwrap	14	Typical Eps Shape Application
6	Typical Expansion Joint at Floorline with Casing Bead	15	Typical Outside Corner Miter Detail (Plan View)
6a	Typical Expansion Joint at Floorline with Backwrap	15a	Typical Outside Corner Detail Rabbet Joint (Plan View)
7	Typical Drainage At Floor Line with Starter Track and Casing Bead	16	Typical Inside Corner Detail
7a	Typical Drainage at Floor Line with Backwrap	17	Typical Fascia/Soffit
		18	Typical Termination at Foundation
		19	Typical Metal Coping Detail
		20	Typical Termination Above Flat Roof

#### Notes:

- Unsatisfactory conditions shall be reported to the General Contractor and corrected before the application of Master Builders Solutions products.
- Install Master Builders Solutions materials in accordance with current installation instructions.
- The details within represent Master Builders Solutions Construction Systems US, LLC (herein after Master Builders Solutions) latest recommendations. They are presented in good faith by Master Builders Solutions. The details are subject to change without notice. Master Builders Solutions accepts no liability for the end use of the details. For conditions not shown, consult Master Builders Solutions for review of specific detail.
