

AnticoGlaze™ CS

A beautiful old-world mottled look

Venetian Red

Midnight Mist

Sicilian Sand

Silver Lake

Desert Earth

Sunset Gold

Coral Siena

Castillo Garden

DESCRIPTION

AnticoGlaze CS is a freestyle product that produces a beautiful old-world mottled look on stucco and EIFS that are surfaced with an acrylic or elastomeric finish. The final appearance is greatly influenced by application technique, by the color of the AnticoGlaze CS itself and by the color and texture of the finish to which it is applied. It is best to apply the material thinly and repeat the application, if necessary, to get more depth rather than to have to try to remove product that is applied excessively. Also, it is highly recommended that mock-ups be prepared prior to the job start to ensure the proper look is obtained.

FEATURES

- Array of colors available
- Residential size container available for smaller jobs resulting in less waste
- Excellent weather resistance
- Silicone enhanced
- A perfect balance of base to pigment allowing for color highlighting but not hiding of the substrate
- Fast drying

Note: The purpose of this color selector is to provide a representation of AnticoGlaze CS colors. The final color and texture of the finished product is greatly affected by the combination of the color of the AnticoGlaze CS and the color of the Master Builders Solutions finish to which it is applied. Actual color and texture selections should be made from a sample prepared by the applicator, using the same Master Builders Solutions products, with the same tools and techniques proposed for the actual project. Custom colors are not available.

Note: Please refer to the AnticoGlaze CS Product Bulletin for more information.
