

Springs Abattoir Epoxy Flooring SEC Epoxy

Project:

Abattoir

Location:

Springs, South Africa

Project completed:

27 March 2022

Applicator/Contractor:

SEC Epoxy

Market sector:

Food & Beverage

Products used:

Ucrete HF60RT

Our reference in Springs (South Africa): Springs Abattoir Epoxy Flooring

The background

An existing abattoir required maintenance to the flooring in the cold rooms. The flooring in these cold rooms had to be repaired and covered with a HACCP certified coating.

The requirements for the floor Coating was as follows:

- It has to be able to withstand temperatures as low as -20°C.
- It must be moisture tolerant.
- Non-Tainting of other foods during application in the respective area.
- Thermal Shock Resistant.
- They require a product with fast application & curing.

The challenge

The abattoir had very limited time to allow for these renovations. The contractor only had one weekend to remove the existing coating and to repair and replace the flooring system. The floors had to be fully serviceable and functional by the Monday morning.
